

WHY MIA BELLA GOURMET CANDLES?

- ▶ Mia Bella "Virtually Soot Free" Gourmet Candles are made with natural materials, from American farms, such as vegetable, plant and soy. Purchasing Mia Bella Gourmet Candles help support the American Farmer.
- ▶ Mia Bella Gourmet Candles are of the highest quality and don't cost anymore than paraffin wax candles, but you'll get so much more.
- ▶ Mia Bella Gourmet Candles burn 50% longer than paraffin. Our 16 oz. jar candles burn approximately 80 – 100 hours. Our votive candles burn approximately 8 – 15 hours. MIA BELLA CANDLES BURN EVENLY TO THE BOTTOM OF THE JAR WITH NO LOSS OF SCENT.
- ▶ Mia Bella Candles DO NOT contain paraffin wax. Paraffin contains 11 documented toxins, and two are carcinogenic. Paraffin produces soot (black smoke and film left behind in the air and on the jar. The "petro-soot" can be as harmful as second hand smoke. **The American Lung Association** has warned consumers of unhealthy indoor air quality from burning candles containing petroleum by-products.
- ▶ They have a low melting point, which means they burn cool, allowing their long lasting aromas to quickly scent the air. They are also made of natural wax material that is water-soluble, which means if you spill it, you can clean it up with soap and water.
- ▶ Our scenic labels are shrink wrapped for display; however, can be easily removed.
- ▶ We use only the highest quality fragrances and we infuse our scents throughout the entire candle so you get the same incredible fragrance from top to bottom. **WARNING:** Once you start burning a Mia Bella Soy Candle you will never want to use any other candle again!
- ▶ Mia Bella Gourmet Candles make great birthday and holiday gifts. They are perfect for that special teacher, babysitter, or even the person who has it all!
